---

Dear Valued Community Member,

We are reaching out to you on behalf of the Business Advisory Board with Comsewogue High School. The mission of our program is to motivate and empower our students to become independent thinkers, problem solvers, and professional employees. It is our goal to support each student to meet the challenges of tomorrow's emerging world.

We would like to invite you to take part in developing the workforce of the future. There are several ways that you can have an impact on our students.

- **Student Employment** – Students want to work! Students are very interested in working part-time or seasonally and these experiences help students connect the importance between school and the workplace.
- **Internships** – Students participate in internships throughout the school year and are eligible to receive school credit for their experiences. Invigorate your organization with new and diverse relationships through our Work Based Learning Program.
- **Career Insights and Mentorships** – Do you want to spread the word about your field or industry? Communicate the needs of your industry directly to educators and students! We host guest speakers and career mentors to educate students about the workplace and different career fields they might develop an interest in.
- **Job Shadowing** – Students can gain valuable skills from observing and learning from professionals in the workplace. This option also provides the opportunity to mentor youth in the community.
- **Business Advisory Board** – Do you want to help develop the workforce of tomorrow? Join our Business Advisory Board, to partner with organizations and businesses like yours to develop relationships, discover opportunities for our students and to identify employability needs for future curriculum and career development.

We are looking forward to partnering with you in the future!

Sincerely,

*Anthony Ketterer*
