

The **Brookhaven Chambers of Commerce Coalition** recognize that our small business communities are always challenged. With this in mind the BCCC is offering 2 enticement grants for this year to help offset *operational expenditures*. This criteria differs from our *small business improvement grant* and allows the money awarded to be used for **FUNCTIONAL COSTS**. Guidelines and contact info are below. *Your letter of request is your 'formal application'*. Applications will be judged independently and **ONLY** one per business. Reflecting the needs of the business will determine the amount of the grant.
