For the month of April, the goal of the game is to use this page at various locations in town and visit the businesses on the card, purchase something inexpensive, and earn a stamp on your card.

Business BINGO is a chamber event that creates opportunity to get out and interact with our member businesses. Some of the businesses may not have a brick and mortar shop but run a business nonetheless and sell their products online or have a service to provide.

For small business owners, their business is not just a business - it's an extension of who they are. Supporting the local businesses within your community not only keeps those businesses alive, but keeps the communities they serve thriving, as well.
